FRONTEND DEVELOPER

I am a Front-End Developer who loves developing pixel perfect UIs while meeting tight deadlines. I chose development as my career path because I have always enjoyed the process of turning an idea into a fully functional product. I am now looking for a company that can help me showcase my skills and work towards producing high-quality products. Additionally, I am also able to learn new technologies quickly and adapt to changes in my work environment easily.

PROJECTS

Charitable Trust Management System (Website):   Major project in B.C.A final year

Developed a website utilizing HTML, CSS, and React, comprising Home, About, Skills, and Contact sections. Ensured responsiveness and dynamism, with a fixed Navbar, hover effects, and smooth page redirection for enhanced user experience.

Portfolio:

Developed a website utilizing HTML, CSS, and React, comprising Home, About, Skills, and Contact sections. Ensured responsiveness and dynamism, with a fixed Navbar, hover effects, and smooth page redirection for enhanced user experience.

Mini Projects:

- **Shopping Website**: This is done with HTML, CSS, React, Material UI. Designed and implemented a user-friendly shopping website featuring dynamic filtering options based on price, ratings, and brand selection to enhance user experience and streamline product search.

- **Hotel Website:** This is done with HTML, CSS, React, Mantine UI Implemented sorting and filtering functionalities by name and price in ascending order
